

APG CASH DRAWER MonitorPRO™

Monitor Management Solutions

APG CASH DRAWER'S MonitorPRO™ Monitor Management Solutions add flexibility to the foundation of your POS installation. Finding enough space for POS peripheral devices is sometimes a challenge. With the combination of a 15 inch monitor and a wide footprint receipt printer, valuable counter space is often lost to POS hardware. APG's MonitorPRO™ space management solution lifts the monitor from the counter top or drawer providing additional area. The strong flexible arm allows the monitor to be positioned for better viewing by the clerk or the customer.

The APG Monitor Arm comes standard with a mountable base, a 6" rotating arm and a 10" x 10" flat platform for the monitor. The base of the monitor arm attaches to the top of the rear right hand side of the POS-Partner® System Cash Drawer. The monitor cables can be routed through the base pole to decrease cable clutter. The Monitor Arm can also be attached to other cash drawers or directly to your counter top.

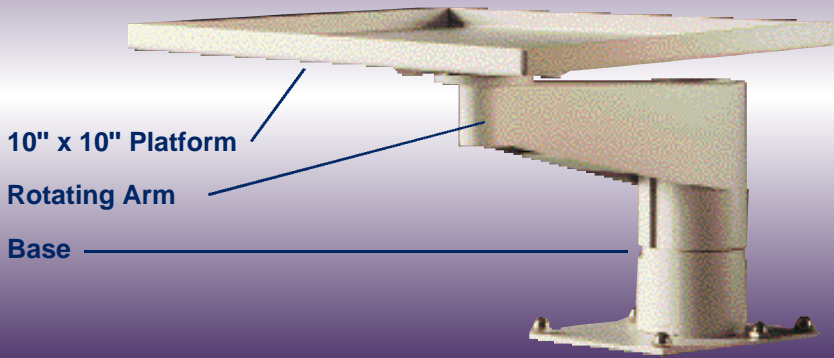

APG can customize this product to your exact specifications. *Call APG or your POS distributor with your requirements.*

Build on a Solid Foundation®

APG MonitorPRO™ Solution

POS-Partner® System with
MonitorPro™ Solution

Specifications:

Color:

- Cloud White (CW)
- Custom colors available

Sizes:

- 10" x 10" Monitor Platform
