Datamax-O'Neil is synonymous with rugged and reliable stationary and portable printers. Now you can receive the same quality and reliability from our printer supplies that you've come to expect from our printers. When you choose Datamax-O'Neil Certified Supplies, you will receive our proven commitment to superior quality, quality that results in performance and compatibility... guaranteed. For quality products at the best possible price, turn to the company with manufacturing facilities conveniently located in California and Illinois. The world's most reliable printers deserve the most reliable supplies.

Datamax-O'Neil Certified Supplies have been *Certified* by our engineers for use in our printers. This important qualification means these supplies have passed rigorous performance and image life testing. Quality supplies are key to obtaining optimal image quality and print performance. It's also the key to extending the life of the thermal printhead, minimizing downtime, and maintaining optimal performance through the life of the printer.

Datamax-O'Neil Certified Supplies Offer:

- Optimum compatibility with your Datamax-O'Neil printer, guaranteed.
- The Datamax-O'Neil commitment to quality and reliability
- Factory direct ordering which allows us to control turnaround time
- Application specific product and supplies to meet any need
- Salespeople trained to correctly match proper media to your specific application
- Factory direct support to minimize downtime
- Reduction in total cost of ownership
- Customized imprinting
- In-house cutting and coring of our own paper that ensures optimum performance from your Datamax-O'Neil printer
- A wide range of products – many ready to ship within 24 hours!

Quality supplies mean better printer performance and less downtime.

Printer Supplies General Information

Terms and Conditions:

- Payment Terms – NET 30 upon account approval.
- A \$25 handling fee will be assessed on all stock orders under \$50.
- Depending on manufacturing schedules, we target to ship our stock label & receipt rolls within 24 hours upon receipt of order. Labels that are out of stock will have a lead time.
- Upon receipt of purchase order, Datamax-O'Neil Printer Supplies will send an acknowledgement all orders via fax or email via contact information provided by D-O's customer.

Custom Blank and/or Pre-Print Jobs

- Custom desktop label orders are subject to a \$250 minimum & custom portable orders are subject to a \$500 minimum.
- Custom desktop items are targeted to ship 10-12 working days from proof approval. Custom portable items are targeted to ship within 15-20 working days upon proof approval. Custom lead times may extend slightly due to material and/or die configuration. Ship dates are a best estimate only, Datamax O'Neil Printer Supplies is not responsible for higher than normal shipping costs due to delays.
- If capacity is available, less than standard lead-time may be available with an additional rush fee.
- 90-Day Make & Hold and blanket orders must be shipped in case quantity increments and meet the \$1000 minimum order-run requirement. Inventory not shipped by the 91st day of the 90-Day program is subject to daily storage fees.
- Credit cards not accepted for our 90-Day Make & Hold Program.
- Custom orders are subject to an over/under run (%) and considered complete as specified below:
 - Portable

Custom Printed Rolls
0-250 rolls = 20%
251-500 rolls = 15%
501+ rolls = 10%
 - Desktop

+/-10% or to the next full roll

- Custom proof sign-off required for all custom printed jobs. To eliminate additional artwork/graphic design charges, customer must provide Datamax-O'Neil Printer Supplies with digital files in .EPS, .TIF, .PDF or .AI formats (request art requirement guide from your Sales Representative). Initial proofs will be sent to customer within 72 hours from receipt of digital files.
- Custom quote pricing is valid for 30 days from the date of the quotation. Quotations are subject to change if job specifications change from those originally quoted.
- Datamax-O'Neil Printer Supplies retains ownership of all plates and tooling and provides storage, maintenance and replacement costs associated with dies. Plates & dies will be destroyed after a 36-month period of inactivity.

Shipment Methods

- Please specify shipment method on all purchase orders. We have a variety of shipment options available such as UPS, Federal Express, and Bax Global. Some freight carriers may not have regular pickups scheduled, which may result in delays for shipments requested with specific carriers. For example, Federal Express requires a pickup to be scheduled early in the day. Therefore orders that are placed in the afternoon requested to ship via FedEx are not guaranteed for same day pick up.
- Typically shipments weighing 200 lbs or less will ship via UPS or Federal Express. Larger shipments may be specified to ship UPS Hundred Weight or truck.
- All prices for both Desktop & Portable F.O.B origination dock: all claims for damage in transit should be filed with the delivery carrier.

- Preferred payment method for truck charges is collect and due upon delivery (charged collect to customers account)
- Specific truck lines may be requested by customer, but please be advised that certain truck companies may not service all delivery areas. Some truck companies require 24-hour advance notification prior to pickup.
- Shipment methods and export documentation for international freight should be discussed with your sales representative.
- Freight quotes are estimates and subject to change without notice.
- Freight charges & handling fees will be prepaid and added to the invoice unless otherwise specified.

Payment Methods

- All payments must be in U.S. dollars.
- Datamax-O'Neil Printer Supplies accepts MasterCard, Visa and American Express at the time of order placement, C.O.D, or on account with proper verification and acceptance (No cash discount for credit card orders).
- Prepayments by wire transfer or check are also payment options for orders you wish to prepay.
- If paying by credit card, credit card information must be provided at the time the order is placed. Any payment by credit card after the invoice has been generated from our system will be charged an additional 3% handling fee.

Order Placement

- In order to assure accuracy of information for quoting and order fulfillment, Datamax-O'Neil Printer Supplies requires that quote requests and orders be faxed or emailed to your representative. No verbal orders accepted for any reason. All orders will be acknowledged via email or fax within 24 hours upon receipt of purchase order. If you do not receive a confirmation, please call!
- As always, we strongly recommend that materials be tested in the actual application. Many variables can affect performance of materials even though the application appears to be in "specification" with the material, adhesive and ribbon combination. Please contact your representative for samples. Datamax-O'Neil Printer Supplies assumes materials ordered have been tested and accepted in the end-use environment.
- All will call orders must be scheduled 24 hours in advance.

Returns

- Custom and special order items are non-returnable. Stock products returned due to a purchasing error are subject to a 25% restocking charge if the product is returned in saleable condition. No returns will be accepted after 90 days from receipt of order. Request a Return Merchandise Authorization (RMA) number from your Account Service Representative. Please be sure to reference the RMA # on returned product to assure efficient processing of any pending credit. Product returned without RMA # is subject to refusal at our dock.
- Freight charges are non-refundable and customer is responsible for freight charges back to the factory.

Satisfaction Guarantee

- Your satisfaction is guaranteed. If you are not completely satisfied for any reason, we want to know. We will make each and every order right for you!

Datamax-O'Neil Printer Supplies reserves the right to make any changes to the above terms & conditions.

IQ Certified **Stationary** Printer Products

Efficiency is the key to **increasing profit margins** and productivity in today's marketplace. When you are in an industry where tracking every detail is absolutely necessary, you need to find an **efficient** and **reliable** labeling **system** to ensure you are in control of your business. Thermal labeling and barcode printing systems are essential in managing accurate information for industries like healthcare, food distribution, event ticketing, and manufacturing. Not all barcode printing supplies are created equal. Our quality barcode printing supplies will keep your business running smoothly and accurately. Make sure you're in control with Datamax-O'Neil IQ Certified Supplies.

- Datamax-O'Neil IQ Certified Supplies are engineered and tested through Datamax-O'Neil printers for optimal printer performance, so you know you're making the smart choice.
- The stationary printer supplies smart, part-numbering system is as easy as 1-2-3, so you always know exactly what you're going to get from start to finish. For example:

Stationary Printer Supplies Smart Part Number Legend sample:

- T100 = Thermal Transfer Paper with Permanent Adhesive
- T150 = Thermal Transfer Paper with Removable Adhesive
- T160 = Thermal Transfer Paper with Heavy Coat Weight Adhesive
- T170 = Thermal Transfer Paper with Dispersion Adhesive
- T180 = Thermal Transfer Paper with Opaque Adhesive
- TG100 = Thermal Transfer Tag
- T300 = Thermal Transfer Matte Film
- T500 = Thermal Transfer Glossy Polyester
- D100 = Direct Thermal Paper (Coated)
- D150 = Economy (Uncoated) Direct Thermal Paper

IQ Certified **Stationary** Printer **Thermal Transfer** Products

T100 - IQ Thermal Transfer Paper Label PERM

A premium coated, ultra smooth paper Thermal Transfer label stock with a bright white matte finish and permanent acrylic adhesive that provides a dense, smudge resistant face sheet for excellent imaging properties.

- Permanent acrylic adhesive
- Application Temperature: 25°F to 150°F (-3°C to 65°C)
- Service Temperature: -65°F to 200°F (-53°C to 93°C)

IQ Certified **Stationary** Printer Products

T150 - IQ Thermal Transfer Paper Label REM

A premium coated, ultra smooth thermal transfer paper label stock with a bright white matte finish that provides a dense, smudge resistant face sheet for excellent imaging properties. It features an all temperature removable acrylic adhesive that allows for long-term removability.

- Minimum application temperature: 32°F to 120°F (0°C to 49°C)
- Service temperature: -40°F to 200°F (-40°C to 93°C)

T160 – IQ Thermal Transfer Paper Label w/Heavy Coat Weight PERM Adhesive

A premium coated, ultra smooth paper Thermal Transfer label stock with a bright white matte finish and heavy coat weight permanent acrylic adhesive that provides a dense, smudge resistant face sheet for excellent imaging properties.

- Minimum application temperature: 32°F (0°C)
- Service temperature: -75°F to 200°F (-59°C to 93°C)

T170 – IQ Thermal Transfer Paper Label w/Dispersion (Repositionable) Adhesive

A premium coated, ultra smooth paper Thermal Transfer label stock with a bright white matte finish and a dispersion permanent acrylic adhesive with good initial tack and minimal adhesive build over time.

- Minimum application temperature: 20°F (-6°C)
- Service temperature: -20°F to 250°F (-28°C to 121°C)

T180 – IQ Thermal Transfer Paper Label w/Opaque Adhesive

A premium coated, ultra smooth paper Thermal Transfer label stock with a bright white matte finish and a opaque permanent acrylic adhesive for relabeling over existing labels or covering up print.

- Minimum application temperature: 20°F (-6°C)
- Service temperature: -65°F to 250°F (-53°C to 121°C)

TG100 - IQ Thermal Transfer Paper Tag

A 7 mil premium coated ultra smooth paper Thermal Transfer label stock with a bright white matte finish that provides a dense, smudge resistant face sheet for excellent imaging properties.

- 7.0 mil thickness

T300 - IQ Thermal Transfer Matte Film

A biaxially oriented white polypropylene thermal transfer label stock with permanent acrylic adhesive and UV resistance that is recommended for applications requiring a higher degree of durability.

- Minimum application temperature: 25°F (-3°C)
- Service temperature: -75°F to 200°F (-59°C to 93°C)

T500 - IQ Glossy White Polyester

A durable polyester thermal transfer stock with permanent acrylic adhesive that is recommended for the toughest applications including outdoor and circuit boards. Excellent resistance to oil, dirt, alcohol, blood and water.

- Application Temperature: 50°F to 120°F (10°C to 48°C)
- Service Temperature: -40°F to 302°F (-40°C to 150°C)

IQ Certified Stationary Printer Direct Thermal Products

D100 - IQ Direct Thermal Paper

A high quality general purpose direct thermal paper label stock with permanent acrylic adhesive that produces a high contrast black image on a white matte finish coated paper.

- Minimum application Temperature: 20°F (-6°C)
- Service Temperature: -65°F to 160°F (-53°C to 71°C)

D150 - IQ Uncoated Direct Thermal Paper

A medium sensitivity, non-top coated general purpose direct thermal paper label stock with permanent acrylic adhesive.

- Minimum application Temperature: 20°F (-6°C)
- Service Temperature: -65°F to 160°F (-53°C to 71°C)

your benefits ■ ■ ■

Datamax-O'Neil is a world-class converter of direct thermal and thermal transfer labels, tags, and tickets with printing capabilities from one to six colors. Our in-house, state-of-the-art prepress department enables us to keep our custom lead times down to 10 business days.

For quality products at the best possible price, turn to the company with manufacturing plants conveniently located in California, Florida and Illinois. Call your Datamax-O'Neil Printer Supplies today!

Datamax-O'Neil utilizes industry leading thermal transfer synthetic materials to prevent smudging and premature yellowing that may be common with some of the inferior labeling products. And when using Datamax-O'Neil jewelry label solutions with Datamax-O'Neil printers, you can feel confident that you're getting the highest quality image available in this prestigious marketplace. With a variety of shapes and sizes and our custom manufacturing expertise, you can let your imagination run wild presenting your product in a way that differentiates you from the competition.

Certified **Electronic Component** Labels

Glossy White Polyester Labels

Thermal Transfer labels are ideal for nameplates or serial identification labels on finished products. Other applications include rating plates, property identification, and electronic-component marking. Glossy White Polyester is a first class 2 mil Polyester that is used on the topside of a circuit board where heat exposure is limited offering excellent solvent and scratch resistance.

Service Temperature: -40 °F to 302 °F (-40 °C to 149 °C)

Glossy White Polyimide Labels

Thermal Transfer printable labels that are designed to endure harsh environments including high heat, aggressive fluxes, and caustic cleaners commonly used in the manufacturing process of printed circuit boards (PCBs) and electronic components. Materials are designed for top-side, bottom-side, or after process identification.

Service Temperature:

<u>Epoxy Boards</u>	<u>Stainless Steel</u>	<u>Aluminum Panels</u>	<u>Temperatures</u>
Less than 60 Seconds	1-5 Minutes	1-4 Minutes	572 °F 300 °C
1-18 seconds	10-58 seconds	1-8 seconds	842 °F 450 °C
1-5 seconds	3-7 seconds	Less than 8 seconds	1000 °F 538 °C

Minimum Application Temperature: 50 °F (10 °C)

Matte Tan Polyimide Labels

Thermal printable labels ideal for marking electronic components and the top/bottom side of printed circuit boards. This material is designed to withstand high temperatures and harsh chemicals. Withstands through-hole and surface mount circuit board processes. Matte Tan Polyimide is the most durable material for industrial bar code applications where there may be exposure to many different solvents.

Service Temperature:

<u>Aluminum Panels</u>	<u>Temperatures</u>
0-5 minutes	500 °F / 260 °C
0-2 minutes	572 °F / 300 °C
0-1 seconds	626 °F / 330 °C
0-10 seconds	842 °F / 450 °C

Minimum Application Temperature: 50 °F (10 °C)

Semi-Gloss White Anti-Static Polyimide Labels

Thermal Transfer labels ideal for marking electronic components, and the top/bottom side of printed circuit boards. This material is designed to withstand high temperatures and harsh chemicals. Withstands through-hole and surface mount circuit board processes. This high performance material is designed for applications requiring excellent solvent and scratch resistance. Excellent material for circuit board applications requiring an ESD material.

Service Temperature:

1-30 minutes	572 °F 300 °C
2-4 minutes	617 °F 325 °C
1-9 seconds	842 °F 450 °C
1-3 seconds	1000 °F 538 °C

Minimum Application Temperature: 50 °F (10 °C)

Self Laminating Film Cable & Wire Labels

Thermal Transfer printable labels ideal for marking cables, wire and other surfaces that require conformability. Unique "site-hole" technology allows virtually any printer to print the self lam labels accurately with minimal waste.

Service Temperature: -20 °F to 140 °F (-29 °C to 60 °C)

IQ Certified Thermal Transfer Ribbon Products

Datamax O'Neil Printer Supplies offers a full line of ribbon in numerous sizes, colors and ink formulations for a wide range of applications.

With wax, wax/resin and resin thermal transfer ribbons, available to fit Datamax-O'Neil printers, we have the solution for any requirement in our on-hand stock of hundreds of ribbon varieties.

IQWax+

Wax

IQWax is a premium general purpose resin-enhanced wax ribbon, offering broad performance characteristics and delivering a high-quality crisp image with applications that require high-speed printing and enhanced printhead protection.

- Delivers dark, defined images
- Prints at speeds up to 12 IPS, including rotated bar codes
- Enhanced smudge and scratch resistance
- Prevents static build-up
- Our most time tested and proven ribbon

Recommended Applications:

Shipping labels, barcodes, retail bags, pharmaceutical labels, ingredient labels, storage labels

IQMid

Premium Wax/Resin

IQMid is a premium wax- resin ribbon offering broad performance characteristics and smudge resistance. These ribbons produce a high-quality image on the broadest range of materials.

- Very good resistance to smudge
- Very good printing quality at high speed (up to 12ips)

Recommended Applications:

Inventory, shipping, pharmaceutical, retail labeling

IQMid+

Superior Wax/Resin

- Strong scratch and smear abrasion resistance on papers, synthetics and polyesters
- Excellent edge definition and print quality at high dpi and print speeds of up to 8 IPS
- Broad range of receiving facestocks

Recommended Applications:

Heat shrink applications, applications requiring moderate scratch and smear resistance, general retail, apparel

IQRes

Premium Resin

IQRes is a superior resin ribbon offering broad performance characteristics and smudge resistance. These ribbons produce a high-quality image on the broadest range of materials in extreme application environments. IQRes series ribbons print on both paper and film materials.

- Excellent printing quality on a variety of facestocks (papers to films)
- Excellent resistance to smudge and scratch
- Good resistance to high temperatures

Recommended Applications:

Pharmaceutical, cosmetics, rating plates, retail labeling, healthcare and automotive

IQRes+

Superior Resin

Chemical Resistant Resin

- Resin ribbon capable of handling extreme environmental labeling
- Highly chemical resistant including alcohol and petro chemicals
- Unmatched in abrasion and solvent resistance
- Wide print latitude to broad range of plastic films, synthetics and polyesters

Recommended Applications:

Extreme environment labeling, circuit board labels, chemical drum, automotive, signage, electronic component, product identification and asset tracking labeling.

Datamax O'Neil Printer Supplies offers a full line of ribbons in numerous sizes, colors and ink formulations for a wide range of applications. With wax, wax/resin and resin thermal transfer ribbons available to fit Datamax-O'Neil stationary printers, we have the solution for any requirement among our on-hand stock of hundreds of ribbon varieties.

Certified Direct Thermal **Receipt** Paper Products

Standard Receipt

Quality and Economy

- Standard sensitivity, general purpose
- Clean, crisp, dark imaging
- Economy and quality

Premium Receipt

Darker, Crisper Images

- Higher sensitivity provides for the darkest imaging
- Ideal for barcode applications and printouts that require a premium look

Heavy Duty Receipt

Premium Feel

- Thicker, for the durability, feel and handling characteristics of bond paper
- Higher sensitivity provides for the darkest imaging
- Ideal for barcode applications and printouts that require a premium look and feel

Long-Life Receipt

25-Year Guarantee

- Higher sensitivity provides for the darkest imaging
- Image life guaranteed to 25 years (*under proper storage conditions*)

Image Protect Receipt

Harsh Conditions

- Thicker, for the durability, feel and handling characteristics of bond paper
- Overcoat for maximum image protection and maximum image durability
- Excellent protection against moisture, oils scratches and UV light

Hi-Temp Receipt

Heat Resistant

- Specifically designed to withstand high temperature applications
- Thicker, for the durability, feel and handling characteristics of bond paper
- Overcoat for maximum image protection and maximum image durability
- Excellent protection against moisture, oils, scratches and UV light

*All Weather (Polypropylene)

Water Resistant

- Film based (non-paper) that gives total protection against moisture — waterproof!
- Maximum strength and durability
- Higher sensitivity and smoothest surface provides for the best image quality
- Ideal for printouts requiring grayscale

*Available as a Custom offering, please call your Datamax-O'Neil Representative for details.

Certified Direct Thermal **Linerless** Label Products

Linerless - **Permanent** Adhesive

Premium Facestock

- High sensitivity for dark, crisp images
- Overcoated for excellent protection against UV light, oils and moisture
- 3 mil thickness for durability

Permanent Adhesive

- Excellent adhesion to a wide variety of surfaces
- High initial tack
- Maintains excellent bond to curved or irregular surfaces

Linerless - **Removable** Adhesive

Premium Facestock

- High sensitivity for dark, crisp images
- Overcoated for excellent protection against UV light, oils and moisture
- 3 mil thickness for durability

Removable Adhesive

- Adheres to a wide variety of surfaces
- Designed for varying temperatures and humidity
- Removes from the surface for the life of the label

Certified Direct Thermal **Linered** Label Products

ImagePro Linered Labels

Facestock Choices

Economy – Direct Thermal Non Top Coated Paper Label

Available adhesives: Permanent, Removable and All Temperature

- Medium sensitivity, non top-coated
- Economy and quality

Standard – Direct Thermal Top Coated Paper Label

Available adhesives: Permanent, Removable and All Temperature

- Medium sensitivity
- Top coated for optimum environmental resistance
- Bright white face stock for crisp, clean imaging

Premium – Direct Thermal Higher Sensitivity Top Coated Paper Label

Available adhesives: Permanent, Removable and All Temperature

- High sensitivity provides for the darkest imaging
- Top coated for optimum environmental resistance
- Bright white face stock for crisp, clean imaging

Reinforced – Direct Thermal Top Coated Polyester Label

Available adhesives: Permanent and All Temperature

- Medium sensitivity
- Top coated for optimum environmental resistance
- Film reinforced for durability, strength, and tear resistance

Synthetic – Direct Thermal Top Coated Polypropylene Label

Available adhesives: Permanent and All Temperature

- Medium sensitivity
- Top coated for optimum environmental resistance
- Bright white face stock for crisp, clean imaging

Extra Life Ribbons

microFlash 8i, RP-2000 & VMP Printers

With Datamax-O'Neil's 8i, RP-2000 & VMP printers ribbon, you can count on high quality output and optimized performance, as well as lower total-cost-of ownership and maximum up-time.

In addition, by using Certified Datamax-O'Neil consumables you will lengthen the life of your 8i, RP-2000 & VMP printers, avoid equipment damage and protect your warranty.

What Makes Datamax-O'Neil Impact Printer Ribbons Better than Aftermarket Ribbons?

Re-Inking Cartridge

- Re-inking is built right in
- Guaranteed 2 million character yield
- Highest quality ink and nylon
- Dark, clean, consistent imaging for entire ribbon life

Superior Nylon Quality

- Made only from the highest quality nylon
- Reduces the risk of printhead damage
- Reduces potential repair costs
- Lower quality nylon is more susceptible to break or fray

Ink Quality

- Formulated with highest quality, low abrasion inks
- Ensures maximum printhead life
- Clean, consistent imaging throughout the life of the ribbon
- Lower quality inks can be more abrasive and shorten printhead life
- Lower quality inks can yield inconsistent and poor quality images

Did you know?

The paper you choose for your printer can significantly increase the life of your printer. Lesser quality paper can release more dust into the printer which can cause damage to your print mechanism and reduce the print quality of receipt. Datamax-O'Neil offers a wide range of high quality supplies for its printers including custom and stock receipts, ticketing media and cleaning products. When you choose Datamax-O'Neil, you receive a proven commitment to superior quality. Quality that results in performance and compatibility... Guaranteed.

Cleaning Products

Cleaning Cards for Non Adhesive Applications

A single step process to remove dirt and other contaminants from the thermal printhead, rollers
Sold in carton quantities.

Recommended cleaning interval:

Generally every 5-10 rolls under normal conditions. However, more frequent cleanings may be necessary for more demanding applications or severe environmental conditions.

Part Number	Printer Models	Shipping Location	Approx. LBS/CTN	Cards/CTN	Description	List Price
770180-200	microFlash 2, 2t, 2te	CA	1	25	Cleaning Cards	\$28.60

Cleaning Cards - For Adhesive Applications

A two-step process designed to remove adhesive residue and give the thermal printhead, rollers and paper path a thorough cleaning.

Each step involves inserting a chemically saturated card into the paper path. Step one will remove adhesive residue. Step two will remove any chemical residue remaining from the Step one card as well as all dirt and other contaminants from the thermal printhead, rollers and paper path. Sold in carton quantities.

Part Number	Printer Models	Shipping Location	Approx. LBS/CTN	Cards/CTN for Step 1 and Step 2	Description	List Price
