

Intermec Compatible **PrintPAD™**

Integrated Printing System ■ ■ ■

The PrintPAD CN3/CN4 and PrintPAD CN3e/CN4e integrated printing systems offer mobile workers the convenience of a portable thermal printer and mobile computer united in a compact and ergonomic, rugged and reliable unit. This PrintPAD series was designed for use with Intermec's CN3, CN4, CN3e and CN4e mobile computers.

The sleek design of the PrintPAD allows users to conveniently and securely carry their mobile computer, communicate with the printer, as well as charge both the mobile computer and the printer, all in a single integrated package. This innovative one piece printer system combines an enhanced 4" wide thermal printer, the 4te, with an embedded communications charging cradle designed for use in a number of applications including route accounting, direct store delivery and field service.

features at a glance ■ ■ ■

- **Compatible with Intermec mobile computers** - CN3, CN4, CN3e, and CN4e
- **Optional Bluetooth® wireless connectivity** enables the printing of receipts and invoices wherever they are needed
- **Optional DEX communication** enables seamless communicate with the store's DEX system by plugging directly into the PrintPAD's external DEX port
- **Swipe-style card reader allows users to print receipts and process payments easily in the field**
- **Graphics:** Supports the printing of graphics, 1D barcodes, 2D symbologies, and signature capture
- **Intelligent power management** and programmable sleep mode for extended battery life
- **Charging options** include external charge contacts, AC adapter or 12V vehicle cigarette lighter adapter. Charge both the printer and mobile computer at the same time from a single device.
- **Rugged and reliable,** the PrintPAD CN3/ CN4 and PrintPAD CN3e/CN4e were engineered throughout to withstand even the most punishing portable applications. This series is the industry's only PrintPAD- type device to publish a 6 ft. drop specification.
- **Warranty:** Comes with the industry's only two-year standard warranty – twice that of the competition

your benefits ■ ■ ■

Increased productivity – Using a reliable printer means your operation will run smoothly without downtime. The PrintPAD offers an integrated solution that will increase the efficiency of field workers.

Safe and secure – In the storefront, at the office, in the warehouse, and on the road, wireless technology is a critical tool for conducting business. To help ensure your wireless transactions are secure, the PrintPAD offers a broad range of security and encryption protocols that are compatible with today's high-tech security requirements.

Lower total cost of ownership (TCO) – Save money on unnecessary charging accessories and expensive extended warranties. Datamax-O'Neil is the only company to stand behind its mobile thermal printers with a two-year standard warranty.

Did you know?

Using quality labels and paper can significantly prolong the life of your printhead. Datamax-O'Neil offers a wide variety of high quality media for its printers including custom and stock labels and receipts, ticketing media, and cleaning products. When you choose Datamax-O'Neil, you receive a proven commitment to superior quality. Quality that results in performance and compatibility... Guaranteed.

Simplify Daily Operations: Carry, Charge, Communicate

Carry

The PrintPAD is designed to simplify your daily operations. With the PrintPAD, users carry both their handheld computer and printer in one convenient well-designed unit. Using a single integrated product eliminates the hassle of juggling multiple devices and decreases the chance of dropping or misplacing a device in the field. The PrintPAD also provides another layer of protection to your handheld computer.

Charge

The PrintPAD provides a smart recharging solution by charging both the handheld and the printer at the same time from a single AC or car adaptor. That means you have half the adaptors to buy and keep track of on the road. This is not only convenient for workers in the field but also reduces the cost associated with purchasing and maintaining multiple charging devices.

Communicate

The PrintPAD provides seamless communication between the handheld computer and printer. When the handheld is in the cradle, it communicates directly with the printer. An integral Bluetooth option gives mobile workers the ability to communicate with the printer wirelessly when the handheld device is not residing in the PrintPAD. The optional DEX port makes DEX connections to central distributors easy without the need for special software or mechanical switches.

Cost Effective . . .

In today's cost conscious market, the purchase cost and the cost to maintain a solution are critically important.

Fewer accessories - In a typical solution using a separate printer and mobile computer, you need accessories for both devices. But with the PrintPAD you don't need all those cables. Since the PrintPAD charges both devices at the same time, all you need is a cigarette light adaptor and an AC Adaptor. That means you save up to 90% on the initial purchase plus the hidden cost to maintain all those devices.

Reliable - Reliability is an important attribute in keeping your mobile workforce productive and profitable. The PrintPAD offers a proven design with 11 years of product refinement and an uncompromising standard for reliability. In fact, Datamax-O'Neil offers the only "PrintPAD" type device with a published 6-foot drop specification. With this type of durability it's easy to see why Datamax-O'Neil is also the only company to include a two year standard warranty.

No hidden cost - Another way to keep cost down is to look for hidden cost. Unlike some other products on the market, the PrintPAD batteries are included in the purchase price. And when its time to replace them, the PrintPAD uses economical replacement batteries. This can add up to big savings for your company.

Accessories used to charge both the PrintPAD and mobile computer

Accessories used in a typical application involving a separate printer and mobile computer.

Looking for a desktop label printer?

Datamax-O'Neil manufactures an extensive selection of desktop label printers that are ideal for manufacturing, warehouse, healthcare, ticketing, postal services and RFID labeling requirements. Competitive custom and standard media products are also available for all your label, receipt and ticketing needs.
