

The CR-4000 is POSIFLEX's newest cash drawer. It is wider, deeper and longer than the CR-3100. The CR-4000 comes with 5 coin and 5 bill fixed compartments. There is a coin roll storage compartment behind the bill compartments. The CR-4000 has a "Screwless" tamper resistant design and a special feature cushions drawer slams and protects the system.

The chassis and drawer have durable metal construction with high reliability and durability (MTBF over 1 million open/close). In addition, an enhanced version of the CR4210C now includes an embedded powder coat anti-scratch finish, which will better protect the surface from normal wear and tear that often results in discoloring or permanent scratches, thereby extending the life of the drawer.

Interfaces available are printer-driven, dedicated RS232, non-dedicated RS232, parallel, serial and USB. An all-in-one intelligent model meets all interface requirements.

Key Features:

- "Screwless" innovative design
- Precision mechanism to assure wobble-free drawer movements
- Advanced design to extend the MCBF to 1,000,000 times
- Check slot for non-cash or large-bill transaction
- 5 fixed coin compartments and additional coin roll storage located behind each bill compartment
- Intelligent interface models provide transaction security, with 256 codes defined by control board switch (CR4X02 / CR4X03 only)
- Multiple input/output expansion connectors on intelligent interface models for cascade application
- Smart interface models can reconfigure through switch and cable changes only
- new embedded powder coat anti-scratch finish (CR4210C only)

Specifications:

Model	CR4100Z-US	CR421XC
Dimensions	428(W) x 460(D) x 100(H) mm	
Weight	7.0kg	
Bill Compartment	5 fixed	
Coin Compartment	5 fixed	
Coin Roll Compartment	Rear Cash Tray	
Media Slot	Yes	
Color	Beige	Charcoal
Interface	Printer interface	CR-4210: Printer interface CR-4212: Non-Dedicated RS-232 CR-4213: Parallel interface CR-4214: Serial interface CR-4215: USB interface
