PT-6910 Series

Evo·lu·tion (n): a process of continuous change from a lower, simpler, or worse to a higher, more complex, or better state. (Merriam-Webster)

Evolution is the cornerstone to the success of a Point of Sale company to meet a demanding retail industry. Partner Tech is proud to introduce the PT-6910 series – the next generation of POS terminal crafted from proven, successful innovation. With technology, flexibility, and reliability built into our terminals, the PT-6910 series exceeds the standards our customers have come to expect.

Technology – With a higher performance chipset, DDR2 memory, choice of Celeron M 1.0 GHz or 1.5GHz CPU, these improvements guarantee your application will run quickly to meet your high paced environment.

Flexibility – With a 15" adjustable touch display and a long list of modular peripheral options (2x20 CFD integrated rear display, bio-readers/MSR combination, KB-32 keypad and additional 15" rear LCD display) the PT-6910 series can be individually matched to your working environment.

Reliability – Using advanced technological design, the PT-6910 series offers a fan less design and optional Solid State Drive configuration reducing failure points to allow you to focus on your business and remove downtime.

Partner Tech delivers the systems and solutions you have come to demand from you POS equipment to run your business!
