Track inventory levels and item movements in your warehouse, distribution center, stock room or store!

INVENTORY
TRACKING

Barcode

Barcode each of your items.

All RedBeam software packages come with barcode labels that can be printed to your standard laser printer.

You can also print a barcoded item catalog from the system.

Scan

Use a barcode scanner to receive, issue or adjust your items.

Periodically take a physical inventory to keep inventory quantities up to date.

Use a cabled scanner with the Standard Edition or a mobile scanner with the Mobile Edition.

Track

Generate useful inventory reports and print or export to Microsoft® Excel.

Report on current inventory quantities, reorder amounts and items that are out-of-stock or overstocked.

Identify shrinkage using physical inventory reports.
