

ERGONOMIC AND RELIABLE

Skorpio™ is a rugged mobile computer particularly suitable for mobile commerce solutions in the retail environment both on store shelves and in the stock room. Thanks to one of the best ergonomics ever seen on the market, Skorpio™ reduces operator fatigue with no compromise in terms of reliability and robustness, resisting harsh environments, multiple drops, strong shocks and repetitive tumbles. Skorpio Gun™ takes advantage of the best handle and trigger in the warehouse industry. Compact size and light weight combine to offer excellent balance, and superior handling.

WIRELESS COMMUNICATION

Its wireless communication capabilities (Bluetooth®, IEEE 802.11b/g) enable fast transactions and complete interaction with information systems including the newest RF security protocols such as WPA™ and WPA2™. Moreover, Cisco Compatible Extensions CCX V4 certification permits all the advantages offered by the Cisco WLAN infrastructure to be exploited.

“GREEN SPOT” FEEDBACK

Skorpio™ offers the unique feature of integrated data capture technology combined with “green spot” feedback (Datalogic patent), providing a “good read” green dot directly on the code, where the operator usually tends to be looking.

USER-FRIENDLY

The Skorpio™ large high visibility color graphic display with touch screen helps users work more efficiently, while the practical 38-key “alpha & numeric” keypad and the simplified 28-key numeric keypad allow data, codes and descriptions to be input very quickly. It offers a choice between the standard Windows Mobile® 6.1 and Windows CE 5.0 operating systems.
