**Synercard**<sup>®</sup>  
Trusted Identity Solutions

Asure ID Solo™ is the ideal choice for small organizations looking for an entry-level photo ID card software that provides quick and easy single sided card design and print production.

**More Features At Less Cost!**

Using Asure ID Solo's intuitive card design tools users can easily produce professional cards with variable data, barcodes, backgrounds and logos.

- Runs on Windows 2000 and XP
- Intuitive card design tools
- Integrated photo capture
- Stores up to 200 records
- Encodes barcodes

Asure ID Express™ is the ideal choice for organizations looking for an affordable, powerful, and easy-to-use stand alone digital identity and photo card management software solution with local card production capabilities.

**Easy To Learn, Easy To Use!**

Using Asure ID Express' advanced card design tools users can easily produce

professional dual sided cards with variable data, barcodes, magnetic stripes, backgrounds and logos.

- Runs on Windows 2000 and XP
- Intuitive card design tools
- Easy to use data import wizards
- Integrated photo capture
- Stores up to 10,000 records

- Supports both single and batch printing (single and dual sided cards)
- Encodes barcodes and magnetic stripes
- Card records can be securely sent via the Internet in a "Ready To Print" format to an Asure ID Card Service Bureau for primary or backup card printing

Asure ID Enterprise™ is the perfect digital identity and photo card management software solution for organizations that operate over a corporate network. Multiple operators and different departments can easily create, update and maintain shared data in real time.

**High End Performance Without The High End Price**

While Asure ID Enterprise incorporates the power, features, security and flexibility of a high-end digital identity and photo card management software product, its price is anything but high

end. It was designed to be cost competitive while also incorporating many innovative features.

- Runs on Windows 2000 and XP
- Intuitive card design tools
- Easy to use data import/export wizards
- Integrated photo capture
- Stores an unlimited number records (requires MS SQL Server 2000 or higher)
- Supports both single and batch printing (single and dual sided cards)

- Encodes barcodes and magnetic stripes
- Creates customizable reports
- Supports network configurations
- Native support for MS SQL Server™ 7.0, 2000 and 2003
- Cost effective site licensing program for organizations that require multiple data capture and viewing stations
- Card records can be securely sent via the Internet in a "Ready To Print" format to an Asure ID Card Service Bureau for primary or backup card printing
