

APG® CASH DRAWER

APG CASH DRAWER®

APG's Series 6000C family of rugged, attractive cash drawers provides a unique foundation for the POS workstation. The S6000C drawer works well in applications such as automotive, specialty retail and convenience stores that demand a sharp, low-profile look and rugged, fully-featured performance.

All Series S6000C drawers offer dual media slots with spacious media storage and innovative under-till coin roll storage (*photo inset above*). A sturdy, steel-backed plastic drawer front presents an eye-pleasing alternative to metal.

Choose from three S6000C configurations to meet your size, cable management, and system configuration needs.

- ❖ **Basic** - The 16.7" depth fits shorter counter tops yet accommodates full-width keyboards and compact peripherals.
- ❖ **Utility** - A depth of 20" provides more surface area for larger POS peripherals. For ultimate organization, cable routing and storage is provided in the rear of the drawer.
- ❖ **POS-Partner®** - The foundation for the POS-Partner® System, this drawer further facilitates a clean installation by providing ample storage for cables, power supplies and flexible customer display mounting options.

Series 6000C Cash Drawer

APG's Series 6000C - A POS cash drawer that works as good as it looks.

Build on a Solid Foundation®

APG SERIES 6000C Cash Drawer
