# Key Features & Benefits

They are not just 'all inclusiveness'.

They will give you what you're buying and what you're keeping in future.

# **■** Windows android

#### multi OS support

Bluebird industrial tablets have supported multi OS. including the latest Android and Windows 10 IoT Enterprise. Customized OS support by Bluebird's dedicated team will guide you from installation phase to maximum working capacity to serve you with the most reliable environment for your business to flourish. Furthermore you can get an complete real time access in full remote support through Bluebird TMS. Bluebird guarantees that you can experience the convenience, functionality and security of enterprise class OS.

# TankSmith™ ruggedness

Bluebird's products guarantee top-notch quality by incorporating the proprietary TankSmith™ technology. All components are designed with industrial use in mind and have been tested in the field to eliminate any possible operational failures. It's completely resistant to dust, protected against jets of water and is able to survive multiple impact-damage from drops and tumbling. Be assured knowing that every component has been tested thoroughly to reach an immaculate state strong enough for the harsh environments. In addition, components will not be discontinued for the next years to ensure availability and support

#### CORNING® GORILLA® GLASS 3

#### large display, equipped for industrial purposes

Built to last in tough environments, the display has diverse features to make your operation a smooth and convenient process. Featuring large HD displays, they are encased in Corning Gorilla Glass that protects a screen - the most vulnerable part. Furthermore, they have sun glare protection, anti-fingerprint sealing and can be operated equally well with a stylus pen or industrial gloves.

# light yet strong

Not only are Bluebird enterprise tablet slim and lightweight, they meet military rugged specifications. In compliance with the MIL-STD 810G standard. Bluebird products are premium mobile computers well suited for industrial use. They have IP sealing and has been tested to withstand at least 1.2m / 4ft drops.

# longer battery cycle

The Bluebirds' extreme power saving design takes full advantage of a low power consumption processor without sacrificing performance. This power saving architecture reaches precise power management that delivers longer battery cycle in sleep mode. Use either the standard or extended battery and avoid down time with the Hot Swap function.

# WWAN **♠** Ø

# excellent communication and network connectivity

Whether indoors or outdoors Bluebird mobile handhelds provide exceptional network connectivity with a wide range of radio frequencies and Bluetooth capabilities. With WWAN communication capabilities or WLAN as well as Blutooth, be assured in knowing that Bluebird has vou covered wherever vou go.

## optimized camera for industrial demands

They are equipped with auto focusing cameras, providing great performance in speed, accuracy and high image quality that industrial imaging professionals expect.

# functionalities

# comprehensively extended functionality

Bluebird has considered extended functionality with respect to meeting various accessory requirements from the beginning of product planning. At the very outset, it is originally meant to be a whole system including other peripherals for use in a variety of environment.
