\* This product uses only genuine Epson-brand ink packs. Other brands of ink packs and ink supplies are not compatible and, even if described as compatible, may not function properly or at all.

1 Printing in full 1200 x 600 resolution. | 2 Part of the ink from the first cartridges/packs is used for initializing the printer. Ink usage will vary considerably based on images printed, print settings, paper type, frequency of use, temperature and humidity. Variance may be more pronounced when printing infrequently or predominantly with one ink color. Ink is used for printing and printer maintenance, and all colors must be available for printing. For print quality, a variable amount of ink remains after the "replace ink" indicator comes on. | 3 All features of this system require an active Internet connection and the use of a supported browser. | 4 ColorWorks CW-C8000 inkjet printer with UltraChrome DL pigment ink, used in combination with Fasson® 4.5M Mat Wh IJ DL/S4650/50#SCK or Epson PP Matte Label Premium media, has been BS 5609 certified. | 5 For convenient and reasonable recycling options, visit [epson.com/recycle](http://epson.com/recycle) | 6 SmartWay is an innovative partnership of the U.S. Environmental Protection Agency that reduces greenhouse gases and other air pollutants and improves fuel efficiency.
