

FOR SERIES 7 & 700 SERIES BARCODE SCANNERS

Stylish Hands-Free Scanning for Mobile Point of Sales

The Charging Stand is an accessory for models in the Series 7 & 700 Series: 7Qi, 7Xi or D750 barcode scanners. The Charging Stand provides quick and easy scanning transactions.

Supports Mobile Coupons

Benefits

- **Supports Mobile Coupons*** - Customers can scan their coupons to redeem merchandise or present electronic coupons and tickets by passing their mobile devices under the barcode scanner.
- **Easy Mode Transition*** - The Charging Stand's quick release mechanism facilitates a seamless transition between Stand Mode and Mobile Mode. This facilitates a dynamic user environment when moving the scanner from the Charging Stand to the hand.
- **Customers Control Their Devices*** - The Charging Stand will enable customers to securely scan mobile coupons without relinquishing their mobile devices to a stranger.
- **Charges Scanner** - The Charging Stand contains contacts designed to match the Series 7 & 700 Series scanners charging pins, enabling the scanner to charge & operate under AC power when mounted in the Charging Stand. An LED indicates power connection. An AC Adapter with a USB cable is included.
- **Elegant & Functional** - The Charging Stand's design was carefully chosen to match the Series 7 & 700 Series scanners' style, form and function, as well as complement your mPOS solution's appearance.
- **Secure Mounting** - The Charging Stand's robust design is specifically engineered for secure mounting of the cordless scanner. A magnet embedded in the Charging Stand guides the Series 7 & 700 Series scanner into alignment for stable placement.
- **Compatibility** - Only the 7Qi and 7Xi barcode scanners (Series 7 & 700 Series) have the "Grab & Go" feature.
- **Stationary with a Twist** - The Charging Stand's docking Arch is mounted using a gimbal & socket to allow 360 degree rotation and 3D tilt.
- **Smart SDK Indicators*** - When mounted atop the Charging Stand, the SocketScan SDK can be configured so the Series 7 & 700 Series scanner provides LED lighting & tone indication for good scans (vibrate indication off with Unattended Mode/Stand Mode).

*With 7Qi, 7Xi and D750 2D barcode scanners only

Charging Mount:

- Built-in hook and cradle to securely hold the scanner in place
- Magnet ensures proper alignment for charging
- Audible beep (adjustable) provides confirmation when the scanner is properly seated
- Gimbal, slot and thumb-lock screw enable 360 rotation and front/back tilt
- Lanyard can remain attached to scanner on Charging Stand

Base:

- Rubber feet and a weighted base prevents sliding
- Magnets hold the Charging Stand steady on a metal surface
- Keyholes can mount the Charging Stand to a surface (optional)

Electrical:

- Micro USB for connection to AC Adapter (included)
- Charging Stand micro LED indicates power connection
- Scanner LED indicates when it is fully charged (solid green)
