Simple and affordable communications
for your business

Improve productivity

Is your current phone system holding you back?

1. Is your current phone system outdated?

2. Are you out of capacity?

3. Are you moving to a new location?

4. Do you need to link multiple locations together?

5. Are you spending too much on maintenance?

6. Is it expensive or complicated to make changes or add phones?

If you answered *yes* to any of these questions, your business can benefit from ADTRAN's Office in a Box communications solution.

Can your current phone system take your company where it needs to go?

If not, now is the perfect time to consider the new generation communication solution from ADTRAN.

The ADTRAN NetVanta® 7100 Office in a Box provides outstanding functionality and performance that will enable you to increase employee productivity and improve customer service.

Your office will work smoother, mobile and remote users will have faster and secure access, multiple locations will be seamlessly linked together, and working from home will be more efficient.

With an ADTRAN solution, your business will get the job done better and faster.

Voice • Data • Internet

Office in a Box

ADTRAN's new NetVanta 7100 provides a complete communications solution.

System includes: IP PBX, Voicemail, Auto Attendant, Router, Switch, VPN, Firewall, and software and licenses. **All in a single, simple, affordable device.**

Save money

ADTRAN's new Office in a Box provides growing businesses a complete communication solution that is remarkably simple and affordable.

With the ADTRAN solution, a lower upfront cost along with long term cost savings will free up cash flow and contribute to new levels of profitability.

The high costs of communications are now a thing of the past. With ADTRAN, you will be able to invest more of your time, energy, and money into your business!

Lower Cost of Ownership

The ADTRAN NetVanta 7100 Office in a Box offers a significantly lower initial cost and ongoing maintenance expense as compared to traditional systems. Cost savings are achieved by consolidating voice and data networks, reducing monthly service charges, and eliminating expensive add-on phone and voicemail licenses.

Easy to use

It's as simple as picking up a telephone, but it's so much more.

You'll be impressed with the ease of use of your new ADTRAN® communications system.

From the beginning, you will receive industry-leading training and support. A single point of contact will deliver expert service for all of your voice, data or Internet needs. With the ADTRAN Office in a Box, your business communications will be up and running quickly and smoothly with the advantages that a truly comprehensive system brings.

Adding users and making changes will be just a click away using the intuitive, industry-leading personal computer interface. You or an Authorized Partner can easily update the system locally or remotely as your needs change.

ADTRAN delivers advanced functionality and performance with an eye toward ease of use—freeing you to focus on your what you do best—running your business.
