

NetBotz Camera Pod 120

Thank you for buying this NetBotz Camera Pod 120. Designed for use with NetBotz 500 and NetBotz 420 appliances, the Camera Pod 120 pod features a USB port that enables the pod to be tethered to the base station using a standard USB cable. The Camera Pod 120 includes the following features:

- Image processor that generates images up to 1280x1024 resolution, 24-bit color, and up to 30 frames per second.
- User adjustable and switchable industry-standard CS-mount lens. CS mount permits access to hundreds of different general purpose and special purpose lenses.
- Integrated microphone, as well as a microphone jack (standard 3.5mm miniplug), which provide the ability to monitor and capture monophonic audio from the location in which the Camera Pod 120 is installed.
- Speaker/headphone jack (standard 3.5mm stereo miniplug) that can be used with unpowered headphones or powered speakers to provide monophonic audio output.
- Door Switch Sensor jack.
- Camera Motion Detection.
- Activity LED, which indicates the power-on and recording status of the pod.
- The NetBotz Camera Pod 120 also features a standard 1/4" camera mount (located on the bottom of the pod) that enables you to mount the pod in a wide variety of locations.
