

APG Model

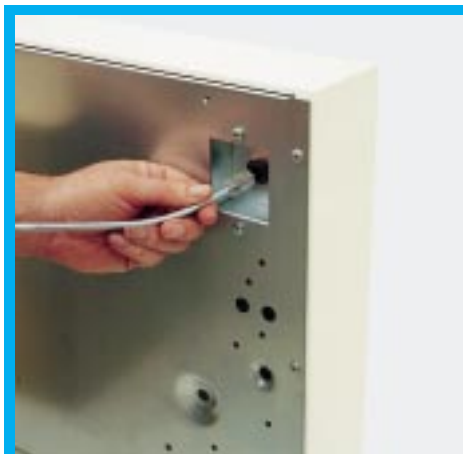

320 MultiPRO Cash Drawer

Features:

- Easy snap-in modular style connector
- Low cost cables available to interface with most receipt printers
- Dependable design-life cycle tested for over two million operations

APG MultiPRO® Cash Drawer

Now there is an easy way to adapt your APG cash drawer to most receipt printers available. The APG MultiPRO cash drawer has been designed to be a standard drawer with a variety of interchangeable cables that are intended to connect to various Point of Sale receipt printers.

The APG MultiPRO cash drawer provides easy access for the printer cable connection.

The cables can be changed on-site allowing the MultiPRO cash drawer to easily meet both today's and tomorrow's needs.

The best part is... no tools are required to transform your cash drawer interface to meet your changing business demands.

APG CASH DRAWER®

Build on a Solid Foundation®
