- 10 Number speed dial memory
- 3 Omni-directional microphones
- Mute button
- Flash button for special calling functions
- Excellent voice quality
- Meets U.S. and Canadian requirements
- Connection cables included

3 Microphones

Well-positioned omni-directional (360°) microphones pick up sound in all directions, making it easy for everyone in the room to participate at normal conversation levels.

High-Quality Sound

DSP-based echo cancellation and this high-quality speaker combine to provide clean, clear Full-Duplex audio for true two-way conversations.

Flash Button

Allows for the use of special calling functions, if available on your existing phone system.

LCD Display

An easy-to-read recessed display shows call status (on/off), phone number dialed, and volume level.

Speed Dial

10 number speed dial allows your frequently called telephone numbers to be stored in memory. Easy to program. Easy to use.

LED Indicators

Three green LED lights flash when the Mute feature is active, or when there is an incoming call. Lights remain on during a call.

Mute Button

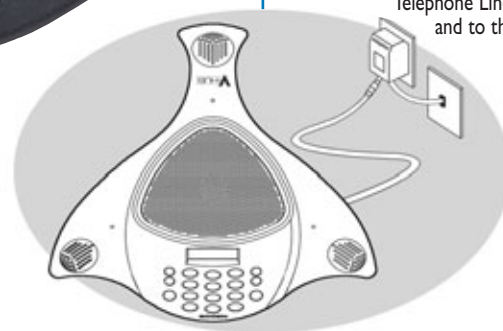

Allows for private conversation on your end of the conference call. The LED lamps will blink while the V•Hub unit is set to Mute.

Easy Setup

Make 3 Simple Connections to the Telephone Line, Electrical Outlet, and to the V•Hub Unit

Dimensions:	12-1/4" W x 2-1/2" H x 12-3/4" D
