Advantech-DLoG 24 Keyboard

- Compact 24 Keyboard
- High quality cast aluminum
- Resistant to dust or liquids
- Protection class IP 65
- Large matt silicone keys
- Suitable for use when wearing gloves
- Outstanding surface feel and tactility
- Ergonomic, pivoting mounting bracket

Introduction

In harsh industrial environments and on vehicles, standard keyboards are often too unwieldy or too sensitive to dust or liquids. The compact 24 Keyboard, made from high quality cast aluminum, is the ideal solution for such application environments. It is attached directly to Advantech-DLoG industrial PCs so that it takes up minimum space, while a pivoting mounting bracket enables it to be ergonomically positioned. The large matt silicone keys are exceptionally resistant to wear and are suitable for use when wearing gloves. Outstanding surface feel and tactility ensure that each keystroke is acknowledged clearly and precisely, even through work gloves.

Specification

Mechanical specifications	Casing material	Cast aluminum, coated
	Dimensions	Height 132 mm, width 132 mm, depth 24 mm / 5.19 x 5.19 x 0.94 inches
	Weight	0.5 kg
	Cable length	50 cm / 19.68 inches
Keys	Number of keys	24
	Lifetime	Minimum 1 million actuations
	Actuating force	2 N
	Switching sequence	1.5 mm / 0.059 inches
	Printing technology	Sealed direct printing
Electrical specifications	Connection	USB
	Operating voltage	5 V
Environmental	IP protection class	IP 65
	Operating temperature	-10 to +60 °C / 14 to 140 °F
	Storage temperature	-35 to +80 °C / -31 to 176 °F

Keyboards

Advantech-DLoG Small-keyboard

- Compact keyboard, suitable for industrial use
- Resistant to dust or liquids
- Protection class IP 65
- Desktop version and mountable version available
- English, German and other keyboard layouts
- Integrated mouse function
- Outstanding surface feel and tactility
- Ergonomic, pivoting mounting bracket

Introduction

The Small keyboard with protection class IP65 offers almost all the functions of a standard keyboard, but unlike a standard keyboard is suitable for industrial use and is considerably smaller, narrower and more stable. The wear-resistant buttons provide the user with precise tactile response, while an integrated mouse function enables convenient cursor control, similar to a laptop trackball. The Small keyboard is available as a desktop version and also as a mountable version that is attached directly onto Advantech-DLoG industrial PCs and, together with the machine, can be ergonomically positioned. It is available with English, German and other keyboard layouts.
