

# GTS Genius Batteries™

The New Science of Mobile Power Management

All-new Genius Batteries are the most intelligent solution for simple and efficient battery management.

Each Genius Battery tracks and monitors its individual usage pattern and performance data to independently calculate its *True* State-of-Health. Genius Batteries contain a built-in LED indicator that informs the user of its health at all times eventually signaling when the battery is near the end of its useful life.

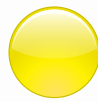

Genius Batteries provide instant insight for improved productivity and performance.
