# PRINTER MOUNTS

ProClip mobile printer mounts allow you to securely mount and power your mobile printer anywhere your work environment requires. A custom-designed mount plate attaches to your printer and then engages firmly with ProClip's innovative powered or non-powered Locking Move Clip keeping your printer within reach, no matter the situation. Mount your printer to a medical work station, warehouse cart, handlebar, shelf, desktop surface or wall, vehicle dashboard or even a forklift rack or bar. If we don't offer a printer mount kit for your printer of choice, we would welcome the chance to design and produce it for you.

- Custom-Made Mounting Solution for your Mobile Printer
- Mount and Power the Printer
- Attach Printers to Handles, Solid Surfaces, Vehicles
- Quick-Release or Fixed Mount
- Custom Mount design and prototyping upon request
- Made in Sweden from High Grade ABS, Acetal and Aluminum
