

Printer Supplies: Direct Thermal Imaging

O'Neil is known around the globe for making the world's most reliable portable printers. Now you can receive the same quality and reliability from your printer supplies that you've come to expect from your O'Neil printer. When you choose O'Neil, you receive our proven commitment to superior quality. Quality that results in performance and compatibility...Guaranteed. The world's most reliable printers deserve the world's most reliable paper.

Certified O'Neil Media Offers:

- Optimum compatibility with your O'Neil printer, guaranteed
- The O'Neil commitment to quality and reliability
- Factory direct ordering which allows us to control turnaround time
- Application-specific products and supplies to meet any need
- Salespeople trained to correctly match the proper paper to your specific application
- Factory-direct support to minimize downtime
- Reduction in total cost of ownership
- Customized imprinting
- In-house cutting and coring of our own paper that ensures optimum performance from your O'Neil printer
- A wide range of products – many ready to ship within 24 hours!
- Custom packaging options

“When the decision was made to begin our hand held project the supplier options were numerous, but the decision was easy...it was O'Neil all the way. And I'm pleased to report that O'Neil has far exceeded our expectations.”

Matthew McGary
Chicago Tribune

► Seven Paper Grades

To ensure optimum performance, O'Neil offers seven grades of thermal paper specifically designed for your microFlash® printer. We cut and core our own paper to exacting specifications in order to ensure total compatibility. These papers are designed to support most thermal applications and, when used with our printers, can dramatically extend the life of the thermal printhead.

STANDARD QUALITY & ECONOMY

- Standard sensitivity, general purpose
- Clean, crisp, dark imaging
- Quality and economy

PREMIUM DARKER, CRISPER IMAGES

- Higher sensitivity provides for the darkest imaging
- Ideal for barcode applications and printouts that require a premium look

HEAVYDUTY PREMIUM FEEL

- Thicker, for the durability, feel and handling characteristics of bond paper
- Higher sensitivity provides for the darkest imaging
- Ideal for barcode applications and printouts that require a premium look and feel

LONG-LIFE 25-YEAR GUARANTEE

- Higher sensitivity provides for the darkest imaging
- Image life guaranteed to 25 years (under proper storage conditions)
- Excellent environmental resistance

IMAGE PROTECT HARSH CONDITIONS

- Thicker, for the durability, feel and handling characteristics of bond paper
- Overcoat for maximum image protection and maximum image durability
- Excellent protection against moisture, oils, scratches and UV light.

HI-TEMP HEAT RESISTANT

- Specifically designed to withstand high temperature applications
- Thicker, for the durability, feel and handling characteristics of bond paper
- Overcoat for maximum image protection and maximum image durability
- Excellent protection against moisture, oils, scratches and UV light

ALL WEATHER WATERPROOF

- Film based (non-paper) that gives total protection against moisture – waterproof!
- Maximum strength and durability
- Higher sensitivity and smoothest surface provide for the best image quality

► Linerless Labels for microFlash® Series Printers

We've listened to and addressed the needs of our label customers by introducing a lineup of direct thermal, linerless label media. By offering a variety of adhesives and facestock options, we can offer the right label for nearly any application.

Facestock Options:

PREMIUM

- High sensitivity for dark, crisp images
- Overcoated for excellent protection against UV light, oils and moisture
- 3 mil thickness for durability

HEAVY DUTY

- High sensitivity for dark, crisp images
- Overcoated for excellent protection against UV light, oils and moisture
- 3.4 mil thickness for maximum durability
- Excellent for applications with demanding environmental conditions

Adhesive Options: (Available for both *Premium* and *Heavy-Duty* facestock)

ULTRA-REMOVABLE*

- Removes easily and cleanly – no residue
- Designed for surfaces such as metal and glass

*Not recommended for corrugated

REMOVABLE

- Highly versatile – adheres to a wide variety of surfaces
- Designed for a wide temperature and humidity range
- Excellent for applications with high temperatures
- Removes from the surface for the life of the label

PERMANENT

- Excellent adhesion to a wide variety of surfaces
- High initial tack
- Maintains excellent bond to curved or irregular surfaces

Your microFlash® printer must be *linerless ready* to use linerless products.

► Cleaning Cards and Kits

Whether you use paper rolls, linerless label rolls or lined label rolls in your O'Neil printer, a regular cleaning schedule is the best way to ensure optimum printer performance.

Regular use of O'Neil cleaning products will:

- Keep your printed image looking clean and crisp
- Clean your printhead, paper guides and paper path
- Remove adhesive residue, dirt and other contaminants that can cause label jams and lead to printer component damage
- Extend the life of the thermal printhead and rollers

► IMAGEPRO Lined Labels*

We manufacture our line of direct thermal labels to the exacting specifications required of Certified O'Neil Supplies. With a full range of facestocks and adhesives, you can be assured of the proper label for your application...resulting in the level of performance you've come to expect from O'Neil.

* For LP3 Label Printer and microFlash® series printers. Please note that only the Standard facestock with permanent adhesive can be used with O'Neil's line of microFlash printers.

Face Stock Choices:

ECONOMY

- Medium sensitivity, non top coated
 - Economy and quality
- Available Adhesives: Permanent, Removable, All-Temperature*

STANDARD*

- Medium sensitivity
 - Top coated for optimum environmental resistance
 - Bright white face stock for crisp, clean imaging
- Available Adhesives: Permanent, Removable, All-Temperature*

* Also available for the O'Neil microFlash printers

PREMIUM

- High sensitivity provides for the darkest imaging
 - Top coated for optimum environmental resistance
 - Bright white face stock for crisp, clean imaging
- Available Adhesives: Permanent, Removable, All-Temperature*

RE-INFORCED

- Medium sensitivity
 - Top coated for optimum environmental resistance
 - Film reinforced for excellent durability, where strength, tear resistance and dimensional stability are important
- Available Adhesives: Permanent, All-Temperature*

SYNTHETIC

- Medium sensitivity
 - Top coated for optimum environmental resistance
 - Bright white face stock for crisp, clean imaging
- Available Adhesives: Permanent, All-Temperature*
