

# MAGNUSTOUCH

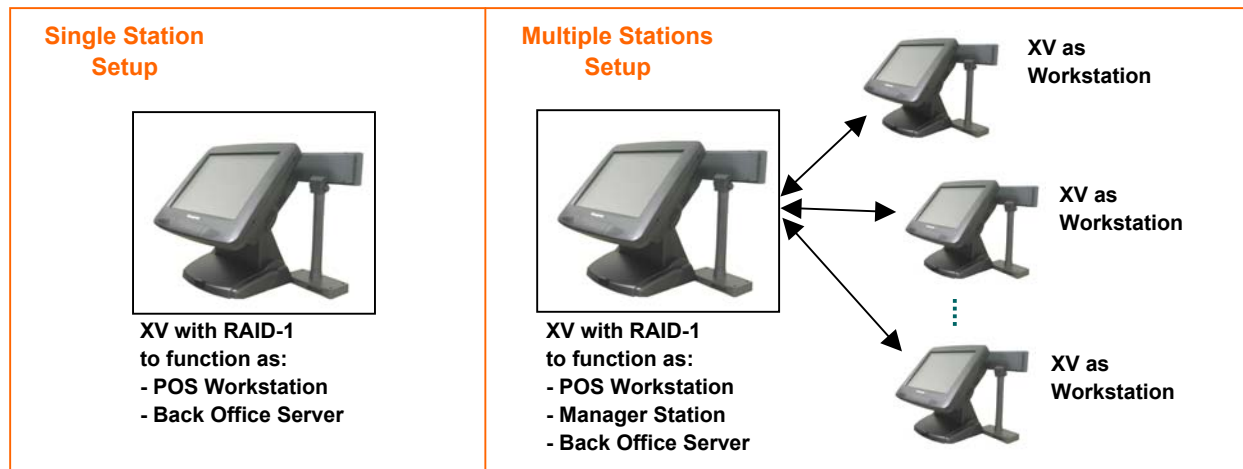

*the most powerful All-In-One system with data redundancy!*

## XV SERIES

The XV is equipped with RAID-1 option which allows automatic hard drive mirroring. By using 2 hard drives, your data will be continuously duplicated onto the second drive. If one drive fails, the XV will automatically run from the second drive, thus reducing down time. Plug in a replacement drive, and XV will re-build the new drive by itself.

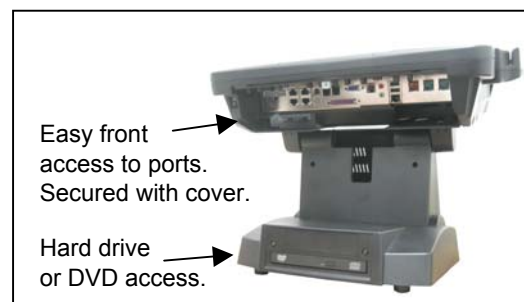

If you have only one terminal setup to manage a store, an XV with RAID-1 is an ideal solution to run both as your POS Workstation and Back Office Server. It will handle your daily transactions with speed, and in the same time it will duplicate your data to the second drive.

In a multiple terminal setup, you can deploy several standard XV as workstations, and one XV with RAID-1 as the Back Office Server. This Server terminal can also be used as a POS workstation to handle daily transactions, as well as a Manager's station. All terminals will communicate via XV's blazing network (upto 1G BaseT.)

### SPECIFICATION

<b>Display</b>	15" Active Matrix TFT, 1024x768	<b>PCI</b>	1 x Full, 1 x Mini
<b>Processor</b>	Celeron 2GHz, P4 2GHz, P4 3GHz	<b>Ports</b>	10/100/1G BaseT
<b>Memory</b>	2 x 168-pin DDR, up to 2GB		4 x Serial, RJ45
<b>Hard Drive</b>	80GB, upto 200GB		1 x Parallel, DB25
<b>O/S</b>	Win2000, XP Prof, WePOS		3 x USB Standard
<b>TouchScreen</b>	Resistive, Intellitouch, Infra Red		2 x poweredUSB +12V
<b>Bezel</b>	Black ABS with spill resistance		1 x poweredUSB +24V
<b>Power Supply</b>	External, 250W, 100-220V auto select		2 x Cashdrawer (Epson emulation)
<b>Listings</b>	FCC, CE, UL		1 x PS/2
<b>Warranty</b>	3 years, Depot		1 x Spkr Out
<b>Add-ons</b>	Magnetic Card Reader		1 x external VGA
	RAID-1 with (2) Hard Drives		
	RF 802.11a/b/g with Di-pole antenna		
	Internal modem		
	CD RW/DVD
